EXPERTS FOR EXPERTS extends search for partners to the Americas

Basel, June 22, 2010. Experts for Experts International AG (e4e), the world's leading international global management consulting and executive search network focused on the transport and logistics industry, has decided to further increase its geographical footprint to cover the Americas. The firm has recently started negotiations with a US company, which has the same industry specialisation.

“After the rapid expansion of the network earlier this year which saw companies in Denmark, Finland, Austria and Germany joining us, we have achieved a satisfactory market penetration in Europe. We have a strong foothold in the Far East with our partner in Hong Kong”, said Dick Binkhorst, Chairman of the Executive Board of Experts for Experts International AG. “We have now decided that the time has come to spread our wings further. We shall not only look at the North American but also at the Latin American market.”

The strategic decision was taken at the 30th Partner Meeting, which took place at the beginning of June in Helsinki (Finland) at the headquarters of the new e4e-partner for Finland and the Baltic States, Cargo Master Group OY. “e4e was founded eight years ago. It is the longest established network of independent logistics consultants. This combination of depth of industry knowledge and breadth of community is unique in recruitment in the transport and logistics field. We can solve any strategic executive search needs around the globe with the experience and excellence of our joint research and management staff.” added Dick Binkhorst.

About Experts for Experts International AG (e4e);

Experts for Experts is a global network of companies that specialise in executive search and management consulting including mergers & acquisitions focusing on the transportation and logistics sector. Established in 2002, the registered office of Experts for Experts International AG is in Basel (Switzerland). The shareholders are twelve partner companies covering 17 countries (Austria, Benelux, Denmark, France, Finland and the Baltic States, Germany, Hong Kong, Italy, Portugal, Spain, Switzerland and the UK). All partner companies are active on an international scale and count both internationally active corporations as well as national small and medium sized enterprises among their customers.
